

## INTRODUCTION

Welcome to our comprehensive **Enterprise Asset Management (EAM) solution**. EAM designed to optimize the management of your organization's assets throughout their entire lifecycle, from asset acquisition to disposal. Oriens EAM empowers you to maximize asset performance, minimize downtime, and drive operational efficiency across your enterprise. Say goodbye to fragmented asset management processes and embrace a unified approach with our cutting-edge EAM Solution

### **Asset Management**

- Centralize the tracking and management of all your enterprise assets to ensure optimal performance and longevity.

### **Work Management**

- Efficiently manage work orders, scheduling, and resource allocation to keep operations running smoothly. Provide inspection management functionality ensuring the operational reliability, safety, and compliance of plant's assets.

### **Inventory Management:**

- Maintain optimal stock levels, reduce downtime, and ensure the availability of critical components with our advanced inventory management system.

### **Mobile EAM**

- Empowers maintenance crew with real-time access to asset data, work orders, and inspection tools via mobile devices.

### **IIoT Management:**

- Leverage the power of Industrial Internet of Things (IIoT) to monitor real-time asset conditions and optimize maintenance efficiency.

### **Integration Management**

- Seamless integration with ERP systems for financial and operational alignment.

### **Health, Safety & Environment (HSE) Management**

- Ensure compliance with regulations and promote a safe working environment with our integrated HSE management tools such as PTW, Safety Walk, Incident management, etc.

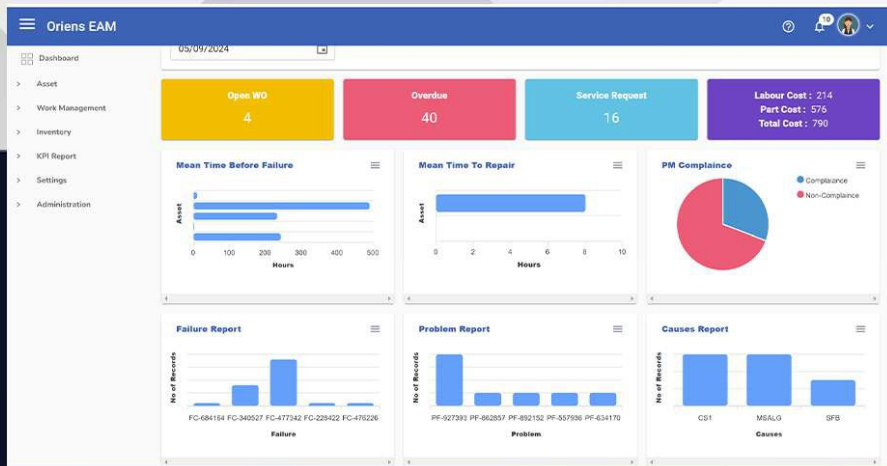

### **KPI and Dashboards**

- Gain insights into your operations with customizable dashboards and real-time maintenance Key Performance Indicators (KPIs).
- 

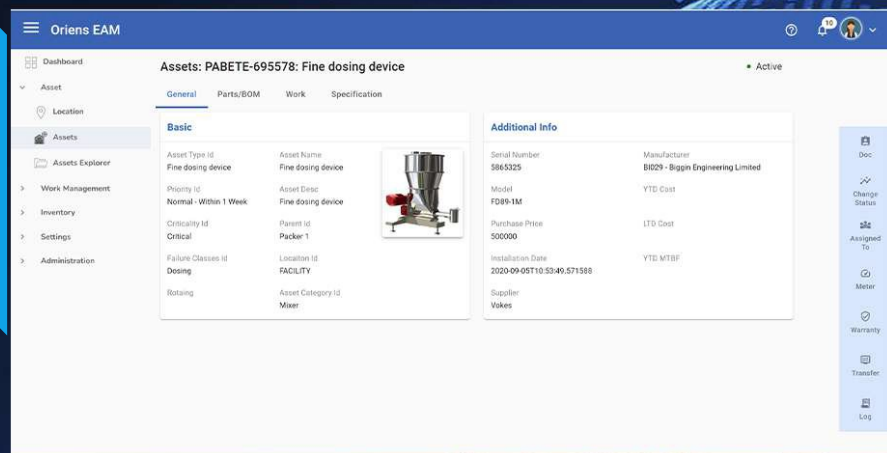

## **Benefits**

- Improved Asset Performance
